

## Business & Technology Program: Internet Technology Concentration

Why should I major in Internet Technology? The Business and Technology Program is designed to prepare students to impact the marketplace through integration of a Christian world view with business and technology theory and application. The business program at Grace University is distinctive from studies at other educational institutions because of the influence of the Bible. The basis of our program is the understanding that biblical and theological principles, when applied to business, constitute best business practices. This is accomplished by beginning each course with a study of the biblical and theological principles that are pertinent to the course. The student who graduates will have created a philosophy of business built on the combined biblical and theological principles taught in Biblical Studies, General Education and Business and Technology courses.

What type of degree will I earn at Grace University if I enroll in this program? Graduates of the Internet Technology Program will earn a Bachelor of Science degree.

What kind of jobs would be available to me after I graduate from Grace University with this major? This program is designed to prepare students for business and technology positions in mission organizations, church and para-church ministries, "tent-making" missionary service, as well as Christian witnesses in the marketplace.

For more information on this program, contact the  
Admissions Office at 1.800.383.1422 or  
Admissions@GraceUniversity.edu.
